## ULTRA BUFFING SYSTEM ULTRA CUTTING CRÈME™ LIGHT

### DESCRIPTION:

Ultra Cutting Crème™ Light is a mildly abrasive compound designed to remove P2000 grit or finer sand scratches from any paint surface – from soft, freshly painted to fully cured. Ultra Cutting Crème Light produces a high-gloss finish without the use of waxes, silicones or fillers that hide scratches and defects.

### DIRECTIONS:

1. Shake product well before using.
2. Apply a 1" (25mm) dab of Ultra Cutting Crème Light to a 2'x2' (.6m x .6m) area and spread with the cutting pad.
3. Gradually increase buffer speed to 1500 – 1800 rpm. Buff until all of the compound is gone and a glossy finish has been created.
4. If the product dries too quickly, mist with Spray 'N Shine™ (#130922) or a little water.
5. Wipe surface with a Presta Micro Fiber Cloth.
6. Repeat if necessary.

### RECOMMENDED PAD:

- To remove 2000 grit sand scratches, use a Presta Yellow Blended Wool Buffing Pad.
- As the first step in removing cured swirls, use a Presta Blue Blended Wool Pad.

### FEATURES & BENEFITS

Mild abrasive formula	<ul style="list-style-type: none"><li>• Removes light sand scratches from fresh and cured paint</li><li>• Works well on medium solid clears and soft, baked paint</li></ul>
Innovative product	<ul style="list-style-type: none"><li>• Minimizes swirls</li><li>• Produces a high - gloss shine</li></ul>
Contains no fillers, waxes or silicones	<ul style="list-style-type: none"><li>• Body shop safe</li></ul>

### PACKAGE SIZES:

Quart bottles                      Part # 133432  
Gallon containers                Part # 133401

## PRODUCT FAQ'S:

**Q1: Is Ultra Cutting Crème™ Light body shop safe?**

**A1:** Ultra Cutting Crème Light is body shop safe and contains not silicone, wax, or fillers.

**Q2: What grit sand scratches will Ultra Cutting Crème Light remove?**

**A2:** Ultra Cutting Crème Light is designed to remove P2000 or finer sand scratches

**Q3: What is the main use for Ultra Cutting Crème Light?**

**A3:** Most technicians will use Ultra Cutting Crème Light to touch up vehicle panels that have car wash scratches or other light scratches from normal wear and tear. It can also be used as the initial buffing step if the technician is sanding to P3000 or finer.

**Q4: Can Ultra Cutting Crème Light be used with other Presta buffing systems?**

**A4:** Yes, Ultra Cutting Crème Light is compatible with all Presta buffing products.

**Q5: How do I know what Presta pad to use with Ultra Cutting Crème Light?**

**A5:** Presta products have a color coded banner behind the Presta logo on each bottle that matches the color of the buffing pad that should be chosen for use.
